

Subject: Indiana Telephone Privacy

I am completely opposed to the weakening of Indiana's law with respect to telephone privacy. The constant interruptions from telephone solicitors was extremely aggravating, especially during our dinner hour. When we are at my home, we don't want to be disturbed with telephone calls from people I don't know selling items we are not interested in buying. The Indiana Telephone Privacy act that went into effect on 1/1/02 has been a godsend. Please do not change the law to allow companies I currently do business the opportunity to call as often as they want. I have a right to my privacy. If I want their business, I'll contact them.

Thank you,
Kathy Scott
